HDS-990

ALPINE STATUS HI-RES AUDIO MEDIA PLAYER

1,099 £

incl. VAT

915.83 £ excl. VAT

Alpine Introduces the all-new Alpine Status sound system: using the same engineering and design concepts drawn from the third generation, Ultra High-Resolution AlpineF#1Status system, Alpine created “Alpine Status” to achieve High-Resolution Sound at a more approachable and accessible price point. The Alpine Status system is also extremely flexible: all components can be purchased and used in “stand-alone” configuration.

The HDS-990 Hi-Res Audio Media Player achieves 192 kHz / 24 Bit playback via 3 wired USB DAC inputs or wireless Bluetooth® connection. This ensures that any high-resolution music files stored on a USB or smartphone will be reproduced at the intended spec. It is designed to work in parallel with your original radio (or existing aftermarket radio) and has therefore no radio or DAB+ tuner as well as no Bluetooth hands-free features or similar.

The Media Player includes a compact controller with buttons for basic music controls, a high-resolution color screen that displays playback data and album cover artwork, a volume knob for quick sound controls, and a separate black-box for flexible installation in the vehicle. High-Resolution 4x 50 W amplifier output, high-performance RCA outputs and an optical TOSLINK & Coax ports allow for flexible system building with the HDP-D90 Digital Signal Processor (DSP) Amplifier.

- Hi-Res Audio Media Player (192 kHz / 24 bit max sampling rate with down-sampling)
- External control unit with hide-away 1DIN media-box
- Color display
- 3x USB Ports (1x front / 2x back ports) for audio playback
- Bluetooth Audio Streaming (LDAC, aptX HD)
- 4x 50 W built-In amplifier
- 6-channel 31-band Parametric EQ
- 3-way digital X-Over
- Digital Time Correction
- MP3, WMA, AAC, MP4, WAV, FLAC, APE and DSD playback
- 4-channel high-level inputs
- 2-channel AUX inputs (RCA)
- 4-channel high-level outputs (4x 50 W)
- 6-channel RCA outputs
- Optical TOSLINK output
- Coaxial output
- Rotary encoder
- Blue button illumination

HDP-D90

ALPINE STATUS HI-RES 14-CHANNEL DIGITAL SOUND PROCESSOR (DSP) WITH INTEGRATED 12-CHANNEL AMPLIFIER

1,199 £
incl. VAT

999.17 £ excl. VAT

Alpine Introduces the all-new Alpine Status sound system: using the same engineering and design concepts drawn from the third generation, Ultra High-Resolution AlpineF#1Status system, Alpine created “Alpine Status” to achieve High-Resolution Sound at a more approachable and accessible price point. The Alpine Status system is also extremely flexible: all components can be purchased and used in “stand-alone” configuration.

The HDP-D90 DSP Amplifier has a 192 kHz / 32 Bit internal sampling rate and an ultra-wide audio bandwidth of 10 Hz - 110 kHz to reproduce sound at its intended high-resolution spec. Intentional designs, like a copper-plated chassis, bring the signal-to-noise ratio up to >110dB and minimize noise and distortion during playback. Drawing inspiration from the internal Master Clock Management System in the AlpineF#1Status DSP, the HDP-D90 contains a Crystal Oscillator Clock Generator at the core of the unit that tracks and aligns digital information to eliminate jitter (timing errors) and accurately reproduce sound.

The DSP has multiple input options for flexible system building. For vehicles that are unable to replace the factory Head Unit, the DSP has 12-channels of high-level inputs that allow the factory Head Unit to be retained. The DSP amp also has an optical input to add the Alpine Status HDS-990 Media Player or analog inputs for another aftermarket Head Unit. The HDP-D90 (when used in stand-alone mode) can also receive music sent directly from a smartphone with Bluetooth wireless streaming.

While the HDP-D90 has 12-channels of amplification (8x 50 W x 4x 80 W) and can be used to power an entire system, 10-channels of RCA output can be used to add Alpine Status amplifiers for more power or system building.

- Hi-Res Audio DSP Amplifier (192 kHz / 32 bit max sampling rate without down-sampling)
- Built-in 12-channel amplifier (8x 50 W + 4x 80 W @ 4 Ω, 14.4 V)
- MUSES 8820 operational amplifier
- Highly flexible system configuration
- Matrix input summing
- High-Class XO (1/1.000) Crystal Oscillator Clock Generator
- 31-Band / Channel Parametric / Graphic Equalizer
- Digital Time Correction
- External Bluetooth dongle included
- High-performance PC software
- Optional controller available (RUX-C810)

HDA-M80

MONO POWER AMPLIFIER

449 £

incl. VAT

374.17 £ excl. VAT

Alpine Introduces the all-new Alpine Status sound system: using the same engineering and design concepts drawn from the third generation, Ultra High-Resolution AlpineF#1Status system, Alpine created “Alpine Status” to achieve High-Resolution Sound at a more approachable and accessible price point. The Alpine Status system is also extreme flexible: all components can be purchased and used in “stand-alone” configuration.

If you want to build a full Alpine Status sound system with external amplifiers, we recommend the Alpine Status Class-D amplifiers. These amps are developed to perfectly match the Alpine Status speakers and subwoofer for best sound quality. There is a Mono power amplifier (HDA-M80), a 4-channel amplifier (HDA-F60) and a 5-channel amplifier (HDA-V90) with a dedicated high-power subwoofer channel.

All controls are conveniently located on the top side of the amplifiers, protected by a cover plate. This gives you easy access to HP / LP filters and frequency adjustments, gain controls and input channel selectors (different for each amplifier model).

- RMS Power Ratings: Per Channel into 2 Ω, 14.4 V: 1x 800 W, Per Channel into 4 Ω, 14.4 V: 1x 500 W
- Channel Design: Mono
- Class-D amplification circuit
- Power supply and speaker channel connectors
- Copper-plated chassis
- Top control panel (below top cover)
- Black circuit board
- Non-Shutdown design
- Thermal Protection
- One-sided terminal
- Blue power LED

HDZ-653

3-WAY SPEAKER SET 6½" / 16.5 CM

519 £
incl. VAT

432.50 £ excl. VAT

Alpine Introduces the all-new Alpine Status sound system: using the same engineering and design concepts drawn from the third generation, Ultra High-Resolution AlpineF#1Status system, Alpine created “Alpine Status” to achieve High-Resolution Sound at a more approachable and accessible price point. The Alpine Status system is also extreme flexible: all components can be purchased and used in “stand-alone” configuration.

For the audiophile that’s looking to build an ideal sound system, Alpine Status offers a wide range of Hi-Res Audio enabled speakers. The HDZ-653 3-Way speaker set with a high-resolution bandwidth of 55 Hz - 40 kHz includes a 170 mm door woofer, 96 mm mid-range, and 70 mm ring-radiator tweeter with 25 mm voice coil. They also include high-end speaker x-overs.

All speaker cones are made from the same Carbon Composite material to create a unified timbre identity during playback. Theyget very close to the AlpineF#1Status speakers look and feel, using a very similar constructing and motor assembly, as well as the identical build-materials for highest sound quality.

- Hi-Res Audio certified 3-Way speaker system
- AlpineF#1Status speaker trickle-down technology
- Maximum Peak Power: 300 W
- Maximum RMS Power: 100 W
- Woofer diameter: 170 mm (177 mm with attached grill)
- Mid-range diameter: 96 mm
- Tweeter diameter: 70 mm (25 mm voice coil)
- Aluminum die-cast baskets
- Ring-radiator tweeters
- Backed carbon fiber cones
- Double-gathered edge
- High-end X-Over networks
- Included speaker grills
- Integrated Wave Guide on all speakers

HDZ-110

SUBWOOFER 11" / 28 CM

349 £
incl. VAT

290.83 £ excl. VAT

Alpine Introduces the all-new Alpine Status sound system: using the same engineering and design concepts drawn from the third generation, Ultra High-Resolution AlpineF#1Status system, Alpine created “Alpine Status” to achieve High-Resolution Sound at a more approachable and accessible price point. The Alpine Status system is also extreme flexible: all components can be purchased and used in “stand-alone” configuration.

The massive, 28 cm HDZ-110 Alpine Status subwoofer houses a powerful ferrite magnet to ensure efficient power delivery and features an impressive 400 W RMS / 1200W Peak Power Handling. A Carbon Composite cone with double-gathered surround minimizes distortion to reproduce clean, accurate bass even at loud volumes. The HDZ-110 gets very close to the AlpineF#1Status subwoofer's look and feel, using a very similar construction and motor assembly, as well as identical build-materials for highest sound quality.

- AlpineF#1Status speaker trickle-down technology
- Maximum Peak Power Handling: 1200 W
- Maximum RMS Power Handling: 400 W
- Aluminum die-cast frame
- Backed carbon fiber cone
- Double-gathered edge
- Heavy-gauge screw-type cable terminals
- High-performance ferrite magnet

RUX-C810

REMOTE CONTROLLER FOR ALPINE STATUS HDP-D90

89.90 £
incl. VAT

74.92 £ excl. VAT

The RUX-C810 Controller is required for stand-alone operation of the HDP-D90 (if the HDS-990 is not used). It allows basic operation of the DSP amplifier, such as volume control, source selection, pre-set selection, etc.

The controller is very compact and can be easily installed anywhere in the dash-board or center console. It features a rotary encoder and black/white LCD display.

- Compatible with HDP-D90
- Rotary encoder with blue illumination
- Black / white LCD display
- Included installation bracket

INE-AX809

DIGITAL MULTIMEDIA RECEIVER

NEW

749 £

incl. VAT

624.17 £ excl. VAT

The new Alpine INE-AX809, upgrade to modern and outstanding features to enhance your driving experience. With a powerful CPU and 8 GB RAM / 256 GB storage, The INEAX809 display provides quick and convenient access to applications and features, supporting various multimedia formats and Hi-Res Audio playback for superior sound quality. The design seamlessly integrates with your car for a perfect fit.

Enjoy advanced sound tuning by Alpine for perfect balanced audio in every dimension. Equipped with an AKM7739 DSP processor to elevate sound quality to the next level, and featuring a 48 Bands EQ for every detail.

Display & Illumination:

- RAM: 8 GB
- Storage: 256 GB
- CPU: 8-Core Qualcomm® Snapdragon™ 665 2.0 GHz
- 9" Touch screen
- Screen Resolution 1280 x 720 px (HD)
- New Features Update

Media:

- Supports Variety Of Applications
- USB for music and Video
- Bluetooth phone and music streaming
- Radio tuner
- Mirror link
- Audio Playback: MP3 / M4A / AAC / AMR / WMA / WAV / MID / FLAC / OGG
- Video Playback: MPEG / MP4 / 3GP / MKV / AVI / FLV

Sound & Tuning:

- Advanced sound tuning
- Optical Output
- 48 Bands Parametric EQ Per Channel
- DSP Chip: AKM7739

Connections:

- 3x USB
- Bluetooth 5.0 / HDMI / AUX-In
- AV-In / AV-Out
- Support 4G / WiFi / GPS
- Rear camera PAL / AHD / 360° (1080P)
- CAN Interface / SWC Learning Type

ILX-F115D

MEDIA STATION

1,099 £
incl. VAT

915.83 £ excl. VAT

The iLX-F115D Alpine Halo 11 is the second generation of Alpine's world-famous Halo product line, featuring a gigantic XXL 11-inch high-resolution WXGA touch-screen and is compatible with virtually any vehicle with 1DIN or 2DIN installation dock. This Head Unit is especially suitable for vans, pick-up trucks, motorhomes or any other vehicle with a large dashboard – or simply any user looking for maximum screen size. The super-slim display appears to simply hover over your dashboard and can be adjusted in various ways for the best position.

Enjoy wireless Apple CarPlay and Android Auto (wired) compatibility, DAB+ digital radio, USB video playback, Hi-Res Audio playback, Bluetooth hands-free and audio streaming and much more with this amazing Head Unit.

Bring exceptionally good sound quality into your vehicle: the Alpine Halo 11 is the world's first Head Unit featuring a built-in Class-D amplifier and has a wide array of professional sound tuning functions, such as 2-way X-overs, a Parametric EQ, digital time correction and much more.

The optional Alpine Navi Stick KTX-NS01EU can be connected to the Alpine Digital Media Station via USB. It provides instant access to the motorhome navigation system including HERE real-time traffic information. The latest iGo Primo Nextgen navigation with the HERE map database and park4night parking space data guides you confidently through Europe. Further information can be found under KTX-NS01EU.

- Alpine Halo 11
- 11" XXL HD Display
- Wireless Apple CarPlay
- 2x USB Ports
- User-adjustable Display
- World's First Head Unit With Built-in Class-D Amplifier
- Enjoy Excellent Sound Quality
- Wide Entertainment Options
- Vehicle Data-bus Connections
- Drive-Assist Cameras
- External Control Knob

ILX-W650BT

MEDIA STATION

429 £
incl. VAT

357.50 £ excl. VAT

The Alpine iLX-W650BT Digital Media Receiver features a 7-inch hi-res capacitive touchscreen, which works perfectly with smartphone connectivity features like Apple CarPlay and Android Auto. It is designed to give smartphone users all features they want and need to enjoy their car rides. The high-speed charging function for smartphones ensures that your phone battery is rapidly charged, while Bluetooth audio streaming allows everyone in the car to contribute with their phones and music to the party on the road.

The unit features a very shallow installation depth of only 6 cm, which allows installation even in vehicles without full DIN-sized installation docks.

You can further upgrade your iLX-W650BT with the KTA-450 4-channel power pack or KTA-200M mono power pack amplifier with PowerStack capability, to increase your sound output by five times. Both units can be mounted together, to create a very compact package that can fit into a regular 2DIN space. This Power-Stack design won a "Best of CES Award 2019".

Note: this product's AM / FM radio tuner does not have RDS capabilities.

- Enjoy Seamless Smartphone Connectivity
- Simple Swipe Controls
- Easy Navigation
- Works with Apple CarPlay
- Works with Android Auto
- High-Speed Charging
- Shallow installation depth
- Amazing sound tuning
- Built-in Bluetooth
- Up to 5x the power (KTA-450)
- Power-stacked to save space

INE-W611DC

ADVANCED NAVI STATION

649 £
incl. VAT

540.83 £ excl. VAT

The new INE-W611DC motorhome navigation system is designed for motorhomes and camper vans, as well as for truck drivers that look for a flush-mount installation, rather than a tablet-style system.

This unit is an amazing all-in-one solution with built-in iGo Primo navigation using TomTom maps with included trucking and camper software, as well as a CD/DVD drive. The 6.5-inch touch-screen displays navigation maps, menus and movies clear and crisp. Enjoy DAB+ digital radio and use authorized apps in your car with Apple CarPlay and Android Auto.

Take advantage of your two USB ports, allowing you to charge your phone and playback music from your USB stick at the same time.

For owners of regular passenger cars we recommend the INE-W611D (version without integrated trucking and motorhome software).

iLX-F115DU SET

MEDIA STATION FOR FIAT DUCATO 3, PEUGEOT BOXER 2 & CITROEN JUMPER 2

1,319 £

incl. VAT

1,099.17 £ excl. VAT

Upgrade your driving experience with a seamless multimedia retrofit designed specifically for your Fiat Ducato, Citroen Jumper, or Peugeot Boxer. This custom bundle pairs the flagship Alpine Halo 11 digital media station with a dedicated installation frame and dynamic CAN bus harness, delivering a tailored fit without requiring custom modifications to your dashboard.

Featuring an ultra-slim 11-inch WXGA floating touchscreen, the unit offers full adjustment for angle and height to ensure flawless visibility and control access. Integrated wireless Apple CarPlay and wired Android Auto keep your smartphone navigation and media accessible, while a high-efficiency 4x 50 W Class-D amplifier delivers rich, high-resolution audio performance across every journey.

The included plug-and-play wiring interface and vehicle-specific mounting hardware streamline the installation process. This comprehensive setup retains essential factory features such as steering wheel controls and original vehicle settings for a clean, factory-style upgrade.

- Ultra-slim 11" WXGA floating capacitive touchscreen with adjustable mounting height and tilt angle
- Wireless Apple CarPlay and wired Android Auto integration for safe hands-free navigation and media access
- Integrated 4x 50 W Class-D amplifier providing high-efficiency, low-distortion audio power
- Hi-Res Audio playback support for FLAC, WAV, and APE formats up to 96 kHz and 24-bit resolution
- Built-in DAB+ and FM digital radio tuner with automatic switching for uninterrupted radio reception
- Dedicated vehicle interface retains original steering wheel controls and vehicle data-bus functionality
- Custom-fit mounting frame specifically engineered for select Fiat Ducato, Citroen Jumper, and Peugeot Boxer models
- Dual USB ports and HDMI input for expanded audio, video, and device charging connectivity

Compatible Cars:

- Fiat Ducato III (250) 06/2006 → 2010
- Fiat Ducato III Facelift (250) 2011 - 2014
- Fiat Ducato III (290) 2014 → 2022

iLX-F115DU8 SET

MEDIA STATION FOR FIAT DUCATO 8

1,319 £
incl. VAT

1,099.17 £ excl. VAT

Upgrade your Fiat Ducato 8 with the ultimate dashboard centerpiece using this custom-tailored Alpine media station bundle. Designed specifically for seamless integration into 2022 and newer models, this package combines a massive 11-inch high-resolution touchscreen with a precision-engineered fitting kit to ensure a flawless factory-fit appearance.

Experience modern connectivity through wireless Apple CarPlay and wired Android Auto, bringing navigation, hands-free calls, and media apps directly to your fingertips. The slim floating display offers fully adjustable positioning to preserve easy access to your vehicle air vents and dash controls while eliminating unwanted screen glare.

Engineered for outstanding sound performance, the head unit features a built-in Class-D amplifier alongside certified Hi-Res Audio playback and advanced digital sound tuning. Retain full functionality of your steering wheel controls and factory vehicle settings while upgrading your trip with crystal-clear DAB digital radio and dynamic media options.

- Custom fitting kit designed specifically for seamless installation in Fiat Ducato III Series 8 models from 2022 onward
- Giant 11" WXGA capacitive touchscreen display featuring flexible tilt, height, and depth adjustments
- Convenient wireless Apple CarPlay and wired Android Auto compatibility for effortless smartphone integration
- High-efficiency 4x 50 W Class-D internal amplifier delivering powerful sound reproduction with minimal distortion
- Certified Hi-Res Audio playback capability supporting uncompressed digital formats up to 96 kHz via USB
- Built-in digital DAB tuner and Bluetooth connectivity for uninterrupted radio reception and wireless music streaming
- Preserves factory functionality by supporting steering wheel control integration and parking camera displays

The INE-W611DU8S SET provides a complete, flush-mount multimedia upgrade specifically designed for the Fiat Ducato III Version 8 from 2022 onwards. Combining the Alpine INE-W611DC navigation station with the dedicated KIT-HALO-DU8S fitting kit, this package delivers seamless factory-like dashboard integration and modern connectivity for your motorhome or camper van.

At the heart of the system is a 6.5-inch touch screen featuring specialized iGo Primo navigation pre-loaded with TomTom maps tailored for motorhomes and heavy vehicles. With built-in Apple CarPlay, Android Auto, DAB+ digital radio, and a CD/DVD player, you get full access to smartphone apps, clear digital media, and versatile playback directly from your dashboard.

This all-in-one retrofit kit includes dual USB ports for simultaneous phone charging and media playback, along with dedicated camera inputs to make maneuvering large vehicles effortless and safe. Everything needed for a professional installation is included, maintaining a refined vehicle aesthetic while significantly elevating your driving experience.

- Tailored for Fiat Ducato III Version 8 vehicles from model year 2022 and newer
- Clear 6.5" WVGA touch screen with flush-mount dashboard integration
- Integrated iGo Primo navigation with TomTom maps and specialized motorhome software
- Seamless smartphone integration via Apple CarPlay and Android Auto compatibility
- Crystal-clear digital audio reception with built-in DAB+ tuner
- Integrated CD and DVD player for flexible physical media playback
- Dual USB ports supporting high-speed device charging and media playback at the same time
- Dedicated camera connections with adjustable guide lines for simplified parking

X903D-DU8S

ADVANCED NAVI STATION FOR FIAT DUCATO 8

1,299 £
incl. VAT

1,082.50 £ excl. VAT

The 9-inch Navi System X903D-DU8S for the 2022 model year Fiat Ducato 8 will be your perfect companion for all your tours and vacations.

The X903D-DU8S features a huge 9-inch touch-screen with swivel function, that allows the screen to be turned towards the driver or co-driver. This makes it very easy to see and control navigation maps and other functions from both seats. The system is connected to the Ducato's electronics and can be fully controlled from the steering wheel controls.

The built-in motorhome navigation system includes TomTom maps for 48 countries and includes very useful features, such as selectable motorhome profiles, a park4night database, as well as a BordAtlas database.

You can now chose from 3 different motorhome profiles (sizes: S / M / L) or manually input the measurements and weight of your motorhome. This means only suitable routes for your specific motorhome will be proposed. Stay entertained on the road with excellent sound quality from DAB+ radio, Apple CarPlay, Android Auto, Bluetooth or USB sources.

- X903D-DU8S with Swivel Design: Made for Fiat Ducato 8
- Easy to Reach from the Driver's Seat

ILX-F115TRA7S SET

MEDIA STATION FOR FORD TRANSIT

1,359 £
incl. VAT

1,132.50 £ excl. VAT

The ILX-F115TRA7S SET combines the premium Alpine Halo 11 floating media station with a dedicated installation kit designed specifically for the Ford Transit Custom from model year 2018 onward. This package provides a seamless dashboard integration that upgrades your vehicle with a massive eleven-inch high-resolution touchscreen and modern digital features.

Enjoy effortless connectivity with wireless Apple CarPlay and wired Android Auto, allowing full access to navigation, hands-free calling, and smartphone apps while keeping your focus on the road. The integrated high-efficiency Class-D amplifier delivers rich, clean sound reproduction to transform your in-van audio experience.

Engineered for simple installation, the included vehicle-specific mounting hardware ensures the adjustable floating display fits neatly in your Ford Transit Custom without blocking vital dashboard controls or air vents.

- Premium 11" WXGA capacitive touchscreen display with adjustable viewing angles
- Custom-fit installation hardware specifically designed for Ford Transit Custom models from 2018 onward
- Built-in four-channel Class-D amplifier delivering clean 50 W peak power per channel
- Wireless Apple CarPlay and wired Android Auto compatibility for smart driving integration
- Hi-Res Audio playback support for lossless music formats including FLAC, WAV, and APE
- Dual USB ports and built-in Bluetooth for flexible media playback and hands-free calling
- Integrated DAB+ and FM digital radio tuner with seamless signal switching
- Camera input support with adjustable display guidelines for safer reversing and parking maneuvers

Compatible Cars:

- Ford Transit Custom 2018 →

ILX-F115TRA SET

The Alpine INE-F904T6 SET combines the 9-inch Alpine Halo9 navigation station with a dedicated installation kit engineered for Volkswagen Transporter T5 Facelift and T6 models. This complete retrofit package brings modern multimedia, smart connectivity, and integrated navigation directly into your vehicle dashboard.

With its floating edge-to-edge glass display, you can easily adjust the height, distance, and viewing angle for optimal ergonomics. The system seamlessly integrates with your van's existing electronics using the included CAN-to-UART interface to preserve factory vehicle communication.

Enjoy seamless smartphone integration through Apple CarPlay and Android Auto alongside built-in TomTom navigation. The integrated DAB+ tuner and drive-assist camera interface ensure a safe, connected, and premium audio experience on every journey.

- Designed specifically for Volkswagen T5 Facelift (2009-2015) and T6 (2016-2019) platforms
- Features a floating 9-inch high-resolution touchscreen with adjustable tilt, height, and depth
- Includes built-in TomTom navigation and DAB+ digital radio
- Supports Apple CarPlay and Android Auto for effortless app control and music streaming
- Retains key vehicle features using the included CAN-to-UART integration interface
- Integrates drive-assist camera inputs and parking sensor displays directly on screen

Compatible Cars:

- Volkswagen T5 Facelift (7 H/E/J) 09/2009 - 06/2015
- Volkswagen T6 (7 H/E/J) 07/2016 - 09/2019

Small modifications to the dashboard necessary. Only compatible for VW T5 / T6 with original radio and rounded corners.

KWE-DY01G6

SOUND SYSTEM ADAPTER

34.90 £
incl. VAT
29.08 £ excl. VAT

This adapter is needed, if your Volkswagen Golf 6 is equipped with a Dynaudio sound system and you want to install an Alpine Style system.

This adapter is also required, if your Audi (A4, A5, Q5) is equipped with an Audi sound system (Audi Sound 9VD or B&O 9VK) and you want to install the 2nd Generation Alpine Style System X702D-A4, X702D-A4R, X702D-A5 or X702D-Q5.

KAE-DAB1G7

DAB RADIO SIGNAL SPLITTER FOR VOLKSWAGEN GOLF 7 / SKODA OCTAVIA 3

89.90 £
incl. VAT
74.92 £ excl. VAT

- Required only for countries with DAB broadcasting
- Easy and fast installation utilizing the existing antenna cable in Golf from the rear window to the dashboard
- Plug-and-play installation
- No additional DAB antenna necessary
- Golfs with OEM DAB antenna do not require this splitter, however a Fakra to SMB adapter is needed (KAE-F2S)

KAE-DAB1G6

DAB RADIO SIGNAL SPLITTER FOR VOLKSWAGEN GOLF 6 AND AUDI

If you want to install a DAB+ enabled radio or navigation system such as the X901D-G6 in your Golf 6 and you have no original DAB antenna installed, this is a great solution for you. The KAE-DAB1G6 converts the original Golf 6 antenna into a DAB+ antenna. This is a much cleaner solution than a film antenna for the window. It uses the Golf's original wiring so installation is fast and very clean. The kit includes an amplified signal splitter, a filter and required Fakra adapters.

DVR-Q1000

CONNECTED DASH CAM WITH DRIVER ASSISTANCE, FEATURING 2K QHD WITH TRUE HDR, 156° WIDE-ANGLE LENS AND WIFI

259 £

incl. VAT

215.83 £ excl. VAT

The Alpine DVR-Q1000 Connected Dash Cam is an excellent choice for drivers that value high quality video recordings in 2K QHD (2560 x 1440) @ 30 fps or FHD (1920 x 1080) @ 60 fps.

When connected to an internet device such as your smartphone, vehicle WiFi or pocket WiFi the dash cam can store recorded footage in the cloud, where you can download and review videos at any time from your smartphone. You can even view live footage of the dash cam and see the vehicle's location on a digital map.

Parking surveillance mode is automatically activated when you turn off your ignition and captures footage when a motion or impact is detected, so you have video evidence of hit-and-runs while you are away from your vehicle. You can even activate push notifications on your smartphone to be notified in case of an impact larger than 3G.

To ensure excellent recordings at day and night, the DVR-Q1000 is loaded with amazing technologies: for example, Super Night Vision 3.0 paired with HDR ensures recording of important details even at night. Dewarping Technology ensures minimal edge distortion to reduce the fisheye effect in all footage captured with the 156° wide-angle lens.

F220 ALP CABIN IR CAM

INTERIOR INFRA-RED CAMERA FOR DVR-F790

79.90 £
incl. VAT

66.58 £ excl. VAT

The Alpine RVC-I790IR Interior Infra-red Camera is designed for day & night interior recordings with the DVR-F790. With a Full HD 1080p infra-red image quality, the Interior camera records with color during the day, and its Infrared lights make this camera perfect for recording the cabin in low-light conditions. This ensures a clear, high-quality video, whether you are driving during day or night. With a 160-degree viewing angle, the interior camera is a great addition for ride-share and cab drivers and fleet managers who want full coverage of the vehicle's interior.

This ensures a clear, high-quality video, whether you are driving during the day or at night. With a 160-degree viewing angle, the Interior Camera is a great addition for ride-share and cab drivers and fleet managers who want full coverage of the vehicle's interior.

Please Note: This product is only compatible with the Alpine DVR-F790.

- 1080p Full HD with infrared Lights for clear day and night recording quality with colored image during the day and Infrared at night. Infrared Lights (wavelength 940 nm) illuminate the interior of the vehicle in extremely low-light environments, ensuring a clear, bright, and detailed image, no matter how dark it is
- 160-degree wide-angle view guarantees full coverage of the vehicle's interior, keeping you and your passengers safe
- The Interior Infra-Red Camera can be added to the camera hub accessory RVX-100 as part of a multichannel recording system and provide additional coverage where desired

F220 ALP EXTERNAL IR CAM

EXTERIOR INFRA-RED CAMERA FOR DVR-F790

169 £
incl. VAT

140.83 £ excl. VAT

The Alpine RVC-E790IR exterior infrared camera accessory is the perfect addition for motorhome owners or commercial drivers who need an externally mounted recording solution that can not be accomplished with a traditional dash cam. The exterior infrared camera can be paired with the DVR-F790 or the RVX-100 camera extension hub to record an additional angle in clear Full HD video resolution. Its built-in IR light is powerful enough to record footage in extremely low-light conditions, while its IP68-rated body allows it to withstand harsh weather conditions.

Please Note: This product is only compatible with the Alpine DVR-F790.

- Clear video recording: captures footage in high-quality 1080p Full HD video resolution
- Waterproof and dust-proof: rugged IP68-rated body that is both waterproof and dust-proof, allowing it to withstand harsh weather
- Capture clear and detailed footage even at night time: the built-in infrared light (IR wavelength 940 nm) illuminates the immediate surrounding and allows the camera to record details that are invisible to the human eye in dark conditions. During daytime, the exterior infrared camera records with accurate color and balance
- Compatible with Alpine RVX-100 camera extension hub: the exterior infra-red camera can be added to the camera hub accessory as part of a multichannel recording system and provide additional coverage where desired

F220 ALP HUB

CAMERA EXTENSION HUB (4-CHANNELS) FOR DVR-F790

109 £
incl. VAT

90.83 £ excl. VAT

Turn your DVR-F790 into a full vehicle surveillance system with the RVX-100 and the interior and exterior accessory camera range. If you are a motorhome driver for example, you can create a full surveillance system for the outside of your vehicle and protect your garden furniture, BBQ set, bicycles and other belongings from theft. You can also surveil your motorhome interior at day and night to record any break-ins and to look after children and pets while you are away by the Live View feature of the DVR-F790.

You can connect up to 4 accessory cameras to the RVX-100 camera extension hub.

Please Note: This product is only compatible with the Alpine DVR-F790.

- allows connection of up to 4 accessory cameras to the DVR-F790
- all accessory cameras record in 1080p Full HD video quality

HCS-T100

360° CAMERA SYSTEM FOR MOTORHOMES AND CAMPER VANS

1,899 £

incl. VAT

1,582.50 £ excl. VAT

Upgrade your motorhome or camper van with the HCS-T100 Alpine 360° camera system and get an excellent overview while parking or maneuvering your vehicle.

The new system includes 4 HD cameras with silver brackets, the main control unit and all required cables to complete the installation.

When used with an Alpine touch-screen, you can simply touch-control the camera settings right from Head Unit (feature will be enabled after software update in summer 2023). It is also compatible with 3rd party displays (analog video signal and control via remote control).

You can further expand the system with up to 4 additional cameras: check on your pets traveling with you in the back of the motorhome, keep an eye on the grey-water disposal or even height clearance with narrow bridges. There are several add-on cameras available to chose from.

EAN: 4958043505845 | customs code: 85258019

DME-R1200

DIGITAL REAR MIRROR FOR MOTORHOMES AND CAMPER VANS

429 £
incl. VAT

357.50 £ excl. VAT

Being aware of what is happening behind your motorhome or camper van is essential for driving safety. However, the visibility offered by most recreational or delivery vehicles has inherent limitations. The view is often obstructed by fully closed rear-ends of the vehicle, making it impossible for the driver to see what's happening directly behind.

Alpine has developed the perfect solution: the DME-R1200 - a digital rearview mirror with a built-in 12" Full HD monitor displaying images from a high-res HDR camera mounted on the rear of the vehicle. You are able to see traffic conditions behind your motorhome or camper van through the clear video imagery, as well as use it like an analogue rearview mirror (when tuned off) to check on passengers and pets in the rear. This highly increases driving safety and convenience.

The high-quality HDR camera and image processing system achieves rearview image clarity in the Alpine Freeview mirror with minimal glare, even during sunrise or sunset conditions, or when being followed at night by a vehicle with strong headlights.

The Alpine DME-R1200 is a universal product and requires optionally available vehicle-specific installation brackets. You can find an overview of the installation brackets in the "Features & Specs" tab below.

- LCD Size: 11.8 inches (29.9 cm)
- LCD Resolution: 1920 x 440 pixels Full HD
- Camera Pixels: 2 Million
- Camera Lens Angle: H: 110°, V: 55°

KIT-7VW-CRA

7" INSTALLATION KIT FOR VW CRAFTER FROM 2017 AND NEWER

64.90 £
incl. VAT
54.08 £ excl. VAT

This installation kit allows an easy and clean install of the iLX-702DM in a Volkswagen Crafter from model year 2017.

The KIT-7VW-CRA includes a custom-fit frame and installation brackets (no cable harness or interface).

Depending on the vehicle configuration you will additionally require the following interface: for Crafters with radio preparation you need the APF-X300VW; for Crafters with original radio you need the APF-X310MIB.

The optional interfaces allow usage of the steering wheel remote control buttons and retention of the car menu setup through your Alpine system.

- Installation kit for Volkswagen Crafter
- Includes installation brackets and trim plate
- Compatible Cars: Volkswagen Crafter 2 (2017 →), MAN TGE (2017 →)

KIT-R1DUC

REAR CAMERA INSTALLATION KIT

99.90 £
incl. VAT
83.25 £ excl. VAT

The KIT-R1DUC allows a simple and clean installation of an Alpine HDR rear view camera without the need of drilling additional holes in your motorhome rear wall. The installation kit simply extends the 3rd brake light to integrate an Alpine HDR camera for a clean look. To avoid the need of any additional holes, the KIT-R1DUC uses the original screw holes of the brake light, while the camera cable can also use the existing cable pass-through in the rear wall to allow a fast installation.

This kit is compatible with the facelift versions of Fiat Ducato III, Renault Boxer and Citroën Jumper and is designed to fit the Alpine HCE-C2100RD and HCE-C1100/ HCE-C1100D HDR cameras.

KIT-HALO-DU8S

INSTALLATION KIT FOR FIAT DUCATO 8

300 £
incl. VAT

250.00 £ excl. VAT

The installation kit KIT-HALO-DU8S lets you perfectly integrate a 1DIN Alpine Halo system with capacitive WXGA 9-inch or 11-inch screen into the Fiat Ducato III Version 8.

The KIT-HALO-DU8S enables ±10° horizontal monitor swivel of your Alpine unit (INE-F904D, INE-F904DC, iLX-F115D, iLX-F905D).

If your Ducato is already equipped with an original Qi phone charger, you can continue to use it with your Alpine system. This requires the separately sold KWE-Qi-DU8 adapter.

This KIT also supports all buttons of the Ducato's steering wheel controls, including the telephone (accept / decline) keys.

- KIT-HALO-DU8S with Swivel Design: Made for Fiat Ducato 8
- Pre-Flight Check
- Steering Wheel Telephone Controls
- LIN Bus Adapter to Retain Fiat Ducato Wireless Charger

KIT-7FI-DU8

INSTALLATION KIT FOR FIAT DUCATO 8 (ALPINE 2DIN)

130 £
incl. VAT

108.33 £ excl. VAT

The installation kit KIT-7FI-DU8 lets you perfectly integrate an Alpine 2DIN navigation or media system in the Fiat Ducato III Version 8. It is compatible with the Alpine INE-W611D / INE-W611DC, iLX-705D, iLX-W690D and INE-W720D / INE-W720DC.

It includes all metal brackets and screws, a plug-and-play wiring harness and a steering wheel remote control interface for perfect installation, as well as a 2DIN plastic trim plate for a clean integration in your dashboard.

If your Ducato is equipped with an original Qi phone charger, you can continue to use it with your Alpine system. This requires the separately sold KWE-Qi-DU8 adapter.

Note: The KIT-7FI-DU8 is only compatible with vehicles featuring radio preparation or open dash (no radio equipped).

- Plug-and-play wiring harness to connect an Alpine 2DIN Head Unit to the Fiat Ducato 8 electric system
- Includes steering wheel remote control interface to enable operation of your Alpine system from your steering wheel buttons
- Custom-fit metal brackets to mount the Alpine unit
- 2DIN plastic trim panel
- LIN Bus Adapter KWE-Qi-DU8 (sold separately) needed for Ducato original Qi phone charger to work with Alpine system
- Compatible Cars: Fiat Ducato III Version 8 2022 →

KIT-F9FI-DU8

INSTALLATION KIT FOR FIAT DUCATO 8 (ALPINE ILX-F115D, ILX-F905D, ILX-F903D, INE-F904D AND INE-F904DC)

220 £
incl. VAT

183.33 £ excl. VAT

The installation kit KIT-F9FI-DU8 lets you perfectly integrate an Alpine Halo system in the Fiat Ducato III Version 8. It is compatible with the Alpine iLX-F115D, iLX-F905D, iLX-F903D, INE-F904D and INE-F904DC Halo systems.

It includes all metal brackets and screws, a plug-and-play wiring harness and a steering wheel remote control interface for perfect installation, as well as a plastic trim plate for a clean integration in your dashboard and a 1DIN plastic pocket, that can be further upgraded with the KCE-3QI wireless phone charger (sold separately). If your Ducato is already equipped with an original Qi phone charger, you can continue to use it with your Alpine system. This requires the separately sold KWE-Qi-DU8 adapter.

This KIT also supports all buttons of the Ducato's steering wheel controls, including the telephone (accept / decline) keys.

You can also fully customize and use Alpine's new "Pre-Flight Check" on your Halo screen to ensure that your motorhome is fully prepared for the road (gas shut off, windows and doors secured, satellite antenna retracted, etc).

- Plug-and-play wiring harness to connect an Alpine Head Unit to the Fiat Ducato 8 electric system
- Includes steering wheel remote control interface to enable operation of your Alpine Halo system from your steering wheel buttons (including phone operation)
- Custom-fit metal brackets to mount the Halo unit
- Plastic trim panel + 1 DIN pocket
- LIN Bus Adapter KWE-Qi-DU8 (sold separately) needed for Ducato original Qi phone charger to work with Alpine system
- Wireless Charging Console KCE-3QI (sold separately) for Ducato not equipped with an original Qi phone charger

KIT-F9FO-TRA

INSTALLATION KIT FOR FORD TRANSIT CUSTOM

170 £
incl. VAT

141.67 £ excl. VAT

This installation kit allows an easy and clean install of the iLX-F905D / iLX-F115D / INE-F904D in a Ford Transit Custom from model year 2018 with original radio or radio preparation.

The KIT-F9FO-TRA includes a custom-fit frame, installation brackets, wiring harness with CAN interface and an antenna adapter. The CAN interface retains usage of the steering wheel remote control buttons. Also it includes an adapter that connects the original USB port in the dashboard with your Alpine system to maintain these useful connectors.

- Steering wheel remote control interface with CAN to analogue conversion and SIRI support
- Includes steering wheel remote control interface, wiring harness, installation brackets and trim plate
- Includes factory power adapter
- Includes antenna adapter
- Includes an adapter that connects the original USB port in the dashboard with your Alpine system
- Includes camera adapter
- Compatible Cars: Ford Transit Custom 2018 →

For vehicles with original 1-DIN radio (model: T15114A) or radio preparation.

Note: this kit is not compatible with vehicles with original Ford navigation system. Vehicles with original radio and e-call system: the e-call system remains functional, but in some cases an error message may be displayed (vehicles with radio preparation will not encounter this problem).

KIT-HALO-TRA7S

INSTALLATION KIT FOR FORD TRANSIT CUSTOM

260 £
incl. VAT

216.67 £ excl. VAT

Swivel Installation Kit for Ford Transit Custom, fits for 1DIN chassis to install an Alpine car stereo or sat nav with up to 11-inch monitor.

The installation kit KIT-HALO-TRA7S lets you perfectly integrate a 1DIN Alpine Halo system with 9-inch or 11-inch screen (INE-F904D, INE-F904DC, iLX-F115D, iLX-F905D) into a Ford Transit Custom (model year 2018 ->). The kit also enables ±10° horizontal monitor swivel of your Alpine unit.

The KIT-HALO-TRA7S includes a CAN to UART interface featuring support of the steering wheel remote control buttons (latest data protocol including SIRI and OK Google support). It also includes a plug-and-play wiring harness to easily connect your Alpine unit to the Ford vehicle, a camera cable adapter (Alpine direct – RCA), an antenna adapter and a USB adapter. The wiring harness allows for easy access to ignition, speed signal and reversing signal from the CAN bus.

You can even retain the vehicle settings function in the Alpine head unit and includes the convenient “Preflight-Check” function for motorhome drivers.

- Plug-and-play wiring harness to connect an Alpine Halo 9 / 11 to a Ford Transit Custom’s electric system
- CAN – UART Interface
- Includes steering wheel remote control interface to enable operation of your Alpine Halo system from your steering wheel buttons (including phone operation, SIRI and OK Google support)
- Custom-fit installation bracket and trim panel
- Plastic trim panel
- Includes camera cable adapter (Alpine Direct to RCA)
- Includes antenna adapter and USB adapter
- Compatible Cars: Ford Transit Custom 2018 →

KIT-702-447

7" INSTALLATION KIT WITH CAN INTERFACE AND STEERING WHEEL REMOTE CONTROL INTERFACE FOR MERCEDES VITO (447)

209 £
incl. VAT

174.17 £ excl. VAT

Installation kit (7") for the Mercedes Vito (447) model year 2014 and newer. This kit comes with all required installation parts such as USB / AUX port adapter, wiring harness, CAN bus interface, installation brackets, antenna adapter with phantom feed, power quadlock adapter and trim panel.

This makes installation much easier and allows usage of the steering wheel control buttons and vehicle information display with your Alpine product.

The KIT-702-447, combined with the new INE-W720D / INE-W720DC / INE-W710D / INE-W710DC / iLX-705D / iLX-702D, offers cutting edge navigation, paired with DAB+, Android Auto and Apple CarPlay compatibility. INE-W720D / INE-W720DC / INE-W710D / INE-W710DC also supports turn-by-turn arrow guidance in the multi-function display.

- Compatible with Mercedes Vito (447) 2014 — 2021
- Steering wheel remote control interface that also supplies CAN to analogue conversion for ACC, parking brake, speed pulse, SIRI and OK Google support.

Contents:

- Steering wheel remote control and multi-function display interface, wiring harness, installation brackets and trim plate
- USB / AUX port adapter
- Antenna adapter with phantom feed
- Power quadlock adapter

If the car was not equipped with a navigation system, the navigation screen of the MFD needs to be enabled by a Mercedes partner.

incl. VAT

133.33 £ excl. VAT

This installation kit allows an easy and clean install of the Alpine Halo11 (iLX-F115D), Halo9 (iLX-F905D, iLX-F903D) or Alpine Halo9 Navi (INE-F904D / INE-F904DC) in a Mercedes Sprinter 907 (VS 30) from model year 2018.

The KIT-F9MB-S907 includes a custom-fit frame, wiring harness with CAN interface and an antenna adapter.

This Kit is compatible for Sprinters with 1 DIN Radio (E1D), vehicles with Radio Preparation (ER0) need additionally the adapter KWE-S907.

- Interface with CAN to analogue conversion
- Includes interface, wiring harness, installation brackets and trim plate
- Includes quadlock adapter
- Includes camera adapter from RCA to Alpine direct connection
- Includes antenna adapter with phantom feed
- Compatible cars: Mercedes-Benz Sprinter 907 (VS 30) 2018 →

Vehicles with original radio and E-Call system: The E-Call system remains functional - an E-Call adaptation to avoid error messages is required (vehicles with radio preparation will not encounter this problem).

KIT-8VWTX303

8" INSTALLATION KIT FOR VOLKSWAGEN PLATFORMS (MIB-PQ/GOLF VI - SEAT, SKODA & VW)

219 £
incl. VAT
182.50 £ excl. VAT

The KIT-8VWTX303 includes all parts for mechanical fitting of an 8-inch Alpine X803D-U / X803DC-U Head Unit, as well as an interface that allows to retain the car's air condition and heater control screens and the optical parking sensor display.

The interface also supports the vehicle's radio display in the instrument cluster (MFD) and Steering Wheel Remote Control. An antenna adapter with phantom feed and a power Quadlock adapter are included as well. You can even directly connect the original VW / Skoda / Seat microphone and reversing camera with the wiring harness.

- Compatible with VW platforms (MIB-PQ - Seat, Skoda and VW)
- Steering wheel remote control interface with CAN to analogue conversion, retention of original car menu, addition of HVAC (Heating, Ventilation and Air Conditioning) and OPS (Optical Parking Sensor) screens and SIRI support
- Power Quadlock adapter inclusive
- Supports original vehicle microphone and rear camera[2]
- Includes antenna adapter with phantom feed

KIT-HALO-VW320

ALPINE HALO UNIVERSAL INSTALLATION KIT WITH CAN TO UART INTERFACE, SUPPORT OF DISPLAY (MFD) AND SWRC FOR VARIOUS VOLKSWAGEN MODELS

339 £
incl. VAT
282.50 £ excl. VAT

Alpine Halo installation kit[1]:

- CAN to UART interface with SWRC support (SIRI Ready) and instrument cluster display (MFD), as well as the visual parking display (PDC), air-conditioning and heating display
- CAN to analogous conversion for ACC, parking brake, speed pulse, reverse signal
- Retention of original vehicle settings, interface settings adjustable via radio
- Alpine vehicle-specific connection harness with Power-Quadlock connector
- Retention of HVAC (Heating, Ventilation and Air Conditioning) and OPS (Optical Parking Sensor) screens (if original available)
- SIRI and OK Google support
- Supports original vehicle microphone and rear camera
- Included antenna adapter with phantom power

Compatible cars[2]:

- VW Golf 7 (AU) 03/2017 – 05/2020
- VW Polo 6 (AW) 11/2017 – 07/2020
- VW Tiguan (AD) 03/2017 – 06/2020
- VW Sportsvan (AU) 02/2017 – 06/2020

[1] The kit is not compatible with the emergency call system, electric or hybrid vehicles and vehicles with Active Info Display (AID) or sound systems. Please note that vehicle menus may be lost (e.g. traffic sign recognition etc.). A few other functions or settings are retained but may be controlled in a different way.

[2] Compatibility with other vehicles with a suitable radio cutout is possible. However, these have not yet been tested.

KIT-HALO-VW303

1DIN ALPINE HALO AND 2DIN INSTALLATION KIT WITH CAN TO UART INTERFACE FOR VW PLATFORMS (MIB-PQ - SEAT, SKODA & VOLKSWAGEN)

170 £
incl. VAT

141.67 £ excl. VAT

The installation kit KIT-HALO-VW303 lets you perfectly integrate a 1DIN Alpine Halo system (INE-F904D, INE-F904DC, iLX-F905D, iLX-F115D) or 2DIN Head Unit such as the iLX-705D, INE-W720D or INE-W720DC into a compatible Volkswagen, Seat or Skoda vehicle.

The KIT-HALO-VW303 includes a CAN to UART interface featuring support of the steering wheel remote control buttons (latest data protocol including SIRI and OK Google support). It also supports the small display in the instrument cluster (MFD), as well as the visual parking display (PDC) and air condition / heating display (HVAC). You get easy analog signal output from the CAN bus for ignition, parking brake, speed pulse and reversing signal.

Compatible Cars (Maker[1], Model, Model year):

- Volkswagen Amarok (2H) 03/2010 - 08/2016
- Volkswagen Beetle (5C) 11/2011 - 05/2016

KIT-F9VW-T61

INSTALLATION KIT FOR VOLKSWAGEN T6.1, FITS FOR 1DIN CHASSIS TO INSTALL AN ALPINE HALO 9 OR HALO 11

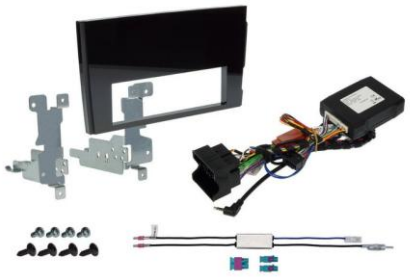

250 £
incl. VAT

208.33 £ excl. VAT

The installation kit KIT-F9VW-T61 lets you perfectly integrate a 1DIN Alpine Halo system with 9-inch or 11-inch screen (INE-F904D, INE-F904DC, iLX-F115D, iLX-F905D) into a Volkswagen T6.1 (type 7H / 7J model year 11/2019 - 2022).

The KIT-F9VW-T61 includes a CAN to UART interface featuring support of the steering wheel remote control buttons (latest data protocol including SIRI and OK Google support). It also supports the small display in the instrument cluster (MFD), as well as the visual parking display (PDC) and air condition / heating display (HVAC). You get easy analog signal output from the CAN bus for ignition, parking brake, speed pulse and reversing signal.

You can even retain the vehicle settings function and adjust all car settings from your Alpine head unit. The cable harness uses Power-Quadlock connectors for simple plug-and-play installation and is fully compatible with the original vehicle hands-free microphone and rear-view camera.

- CAN to UART interface with SWRC (SIRI Ready) and instrument multi-function display (MFD) support
- Visual Parking Display (PDC) and air-conditioning / heating display support
- CAN to analog conversion for ignition (ACC signal), parking brake, speed pulse and reversing signal
- Retention of original vehicle settings (interface settings adjustable in Alpine head unit)
- Alpine vehicle-specific connection harness with Power-Quadlock connector
- Retention of HVAC (Heating, Ventilation and Air Conditioning) and OPS (Optical Parking Sensor) display (if original available)
- SIRI and OK Google support
- Supports original vehicle microphone and rear camera
- Including antenna adapter with phantom feed
- Compatible Cars: Volkswagen T6.1 (7H / 7J) 11/2019 – 2022

Note:

- FOR VEHICLES WITH ORIGINAL eCALL: CAN bus interface to maintain the eCall function when replacing the OEM radio is needed. Please ask your dealer
- Please note that vehicle menus may be lost (e.g. traffic sign recognition etc.). A few other functions or settings are retained but may be controlled in a different way

APF-X304AU

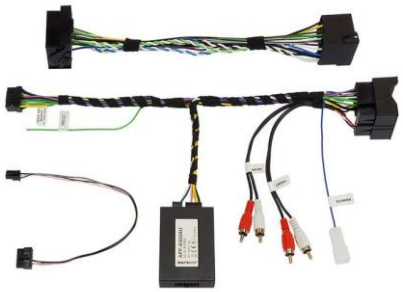

CAN TO UART INTERFACE WITH DRIVER INFORMATION SYSTEM SUPPORT (DIS) FOR AUDI A3 (8P/8PA) & AUDI TT (8J)

189 £
incl. VAT
157.50 £ excl. VAT

This interface allows connection of our latest generation Alpine display units to the Audi A3 (8P/8PA) and Audi TT (8J) electronics.

This makes installation much easier and allows usage of the steering wheel control buttons and vehicle information display with your Alpine product.

- For all Alpine Head Units with UART input connector
- Compatible with Audi A3 and Audi TT
- Retention of original vehicle settings with pre-ignition function (optional)
- Retention of navigation turn-by-turn arrows[1] (if original available) at instrument cluster
- Retention of HVAC (Heating, Ventilation and Air Conditioning) and display of OPS (Optical Parking Sensor if original available)
- SIRI and OK Google support

customs code: 87089390
country of origin: Germany
minimum quantity: 1
quantity per master carton: 1

Content:

- CAN to UART interface with support for steering wheel remote control and instrument cluster display (DIS)
- Vehicle-specific connection harness with Quadlock connector
- Adapter (Quadlock to ISO)

Compatible with:

- Audi TT (8J) 04/2006 - 03/2014
- Audi A3 (8P/8PA) 05/2003 - 2008
- Audi A3 (8P/8PA) 07/2008 - 01/2010

[1] Navigation turn-by-turn arrows: only with compatible Alpine radios.

APF-X304DU

CAN TO UART INTERFACE WITH SUPPORT FOR STEERING WHEEL REMOTE CONTROL IN FIAT DUCATO 3 & SIMILAR VEHICLES

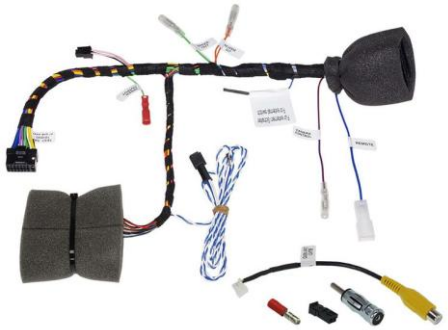

170 £
incl. VAT

141.67 £ excl. VAT

With this CAN-UART connection set you can still use the functions of the remote control in your Fiat Ducato III, Citroën Jumper II and Peugeot Boxer II on our Alpine systems. All important functions such as volume up / down, forward / back, mute and telephone control (answer / hang up) can thus still be used via the Alpine system.

Included in delivery: Steering wheel remote control interface (provides CAN to analog conversion for ignition, parking brake, speed signal, SIRI and OK Google support), ISO-DIN antenna adapter, Alpine direct camera - RCA adapter and ISO connector.

Compatible with Fiat Ducato 3, Citroën Jumper 2 and Peugeot Boxer 2.

APF-X305DU8-OE

CAN TO UART INTERFACE WITH STEERING WHEEL CONTROLS SUPPORT FOR FIAT DUCATO 8 (FROM MY 2022) WITH ORIGINAL FIAT RADIO

149 £
incl. VAT

124.17 £ excl. VAT

The APF-X305DU8-OE is the latest generation of Alpine interfaces for the Fiat Ducato 8 (from Model year 2022) to connect an Alpine navigation or digital media station seamlessly to your vehicle's electronics / CAN-bus and retain all vehicle setup functions and other important features such as the parking sensors display.

It includes a complete plug-and-play wiring harness for adaptation to the original Fiat connectors. It also includes an antenna adapter cable with phantom feed.

Note: The APF-X305DU8-OE is only compatible with vehicles with 5" / 7" / 10" original radio and 3.5" / 7" instrument cluster installed.

- Plug-and-play wiring harness for Fiat Ducato 8 with original radio
- CAN to UART interface with steering wheel remote control support (includes telephone button support)
- CAN to analogue conversion for ignition (ACC), parking brake, speed pulse and reversing signals
- Retention of original vehicle settings (adjustment in the instrument cluster or the Alpine Head Unit)
- Alpine vehicle-specific connection harness with Fiat connectors
- Interface & vehicle settings adjustable via Alpine radio
- SIRI & OK Google support
- Includes antenna adapter with phantom feed
- Compatible Cars: Fiat Ducato III Version 8 2022 →

The APF-X303VW is the latest generation of Alpine interfaces for Volkswagen platform vehicles (including Skoda and Seat) to connect an Alpine navigation or digital media station seamlessly to your vehicle's electronics / CAN-bus. While replacing the original equipment will not limit the functions, drivers will appreciate the ability to retain such visualisations and controls. The APF-X303VW is our solution that allows the customer to receive the same kind of images while operating the heater or air condition controls and also during parking. The interface will also support the VW radio display in the instrument cluster (MFD) and VW Steering Wheel Remote Control. It includes a complete plug-and-play wiring harness for adaptation to the original VW connectors.

Compatible Cars (Maker[1] / Model / Model year):

- Volkswagen Amarok (2H) 03/2010 - 08/2016
- Volkswagen Beetle (5C) 11/2011 - 05/2016
- Volkswagen Caddy (2K / 2KN) 2010 - 05/2015
- Volkswagen CC (3CC) 01/2012 - 11/2016
- Volkswagen EOS (1F) 05/2006 - 05/2015
- Volkswagen Golf VI (1K / 1KM) 11/2008 - 04/2013
- Volkswagen Golf VI Cab. (1K / 1KM) 06/2011 - 2016
- Volkswagen Golf Plus Facelift 01/2009 - 2014
- Volkswagen Jetta VI (16) 01/2011 - 2016
- Volkswagen Passat CC (35) 06/2008 - 2012
- Volkswagen Passat B7 (36) 11/2010 - 10/2014
- Volkswagen Polo V (6R) 03/2009 - 04/2014
- Volkswagen Scirocco III (13) 08/2008 - 2017
- Volkswagen Sharan II (7N) 09/2010 - 2017
- Volkswagen T5 Facelift (7 H/E/J) 09/2009 - 06/2015
- Volkswagen T6 (7 H/E/J) 07/2015 - 09/2019
- Volkswagen Tiguan (5N) 04/2007 - 2015
- Volkswagen Touran (1T / GP / GP2) 2010 - 04/2015
- Skoda Fabia II (5J) 2010 - 10/2014
- Skoda Octavia II (1Z) 01/2009 - 2013
- Skoda Rapid (NH) 10/2012 - 03/2015
- Skoda Roomster (5J) 2010 - 04/2015
- Skoda Superb II (3T) 07/2008 - 06/2015
- Skoda Yeti (5L) 08/2009 - 2015
- Seat Alhambra (7N) 10/2010 - 2015
- Seat Leon (1P/1PN) 03/2009 - 10/2012
- Seat Toledo (KG) 03/2013 - 2015

[1] Only for cars with white MFD (Multifunctional display). Not compatible with radios with CAR button.

[2] No support for original RGB cameras.

Note: For cars with white MFD, if the car was not equipped with a screen before, it may be necessary to program the vehicle in order to enable the visualisation. Please consult with an authorised dealer or service workshop.

KAE-242DA-R

ACTIVE DAB SCREEN ANTENNA

26.90 £
incl. VAT

22.42 £ excl. VAT

- The KAE-242DA is an active DAB/DAB+/DMB film antenna for automotive use
- Structure: Foil type, self-adhesive, asymmetric
- Frequency Ranges band-III/L: 170-240 MHz / 1452-1495 MHz
- Supply: 5-12 V (30 mA), receiver (phantom) supplied
- Directivity: Omni directive
- Impedance: 50 Ω
- Connection: 3.5 m low-loss cable with angled SMB(f) plug
- Color: Black / transparent
- Dimensions: 40 x 170 mm
- UK version

RUX-H01

REMOTE BASS KNOB FOR THE ALPINE HALO DISPLAY

34.90 £
incl. VAT
29.08 £ excl. VAT

The RUX-H01 controller from Alpine has been developed to adjust the volume level of the subwoofer in conjunction with Alpine HALO devices. It ensures quick and reliable operation when adjusting the subwoofer. This saves you having to call up the audio menu on the HALO device display to change the subwoofer volume.

The bass level can be controlled with the RUX-H01 remote bass control. The control can be mounted on any 9-inch or 11-inch Halo screen or anywhere in the vehicle to quickly adjust the bass level.

The RUX-H01 is compatible with Alpine amplifiers and multi-amplifier capable (standard telephone cable splitter required) and can adjust the gain from 0 to -12 dB. The design of the bass control matches the aesthetics of Halo displays and subwoofer enclosures. The smooth, bevelled edges and silver finish provide a high-quality look that complements Halo displays.

EXA-21CA150

CBC CABLE FOR VW GROUP

NEW

99.90 £
incl. VAT

83.25 £ excl. VAT

Dedicated ALPINE Car by Car (CbC) cable designed for use with the ALPINE PDA-S560DSP in most VW Group vehicles. This plug-and-play solution enables quick and seamless installation without modifying the factory wiring harness.

Specifically developed for Volkswagen, Audi, Škoda, and SEAT models, the cable ensures full compatibility and easy integration with the original audio system. Thanks to ALPINE's Car by Car technology, installing the DSP amplifier becomes faster, safer, and more convenient.

Key Features:

- Compatible with ALPINE PDA-S560DSP
- Dedicated solution for VW Group vehicles
- Plug-and-play installation without cutting factory wires
- Fast integration with the OEM audio system
- Secure and reliable connection
- Ideal for upgrading factory car audio systems

A perfect choice for drivers who want to enhance sound quality while maintaining the original functionality and appearance of the vehicle's audio installation.

PDP-E802DSP

SYSTEM INTEGRATION AUDIO PROCESSOR

529 £
incl. VAT

440.83 £ excl. VAT

The PDP-E802DSP is the second generation of Alpine's 8-Channel Digital DSP amplifier. This amazing all-in-one solution allows sound upgrading for virtually any vehicle with its incredible versatility and connectivity options. Featuring 6 input channels (both pre-amp and speaker level), as well as up to 8 fully configurable output channels allow for a very wide range of system applications and flexibility. Tune your sound with a professional 240-band Parametric EQ, 8 channel digital time correction, as well as a 8 channel digital crossover.

For system setup, use the Alpine PC software to connect wirelessly or via USB to the PDP-E802DSP. The very intuitive and easy-to-use software allows for full control over all settings and displays all data in a very nice graphical user interface. The free-of-charge Alpine Remote Control for PDP-E802DSP app (available for both Android and iPhone) lets you control your DSP amp on the go and includes the most important functions, such as master-volume, subwoofer level, source selection, pre-set recall and more. The PDP-E802DSP is the perfect solution especially for OEM upgrades, where the factory radio can't be replaced by an after-market solution to get better sound. The Alpine DSP amp simply adds-on to the existing OEM system, allowing you to build any sound system around your factory system.

This versatile DSP amplifier features many improvement points for easier installability and improved sound quality. On the hardware side, the new designed input circuit improves noise suppression, while the new designed Pre-Out allows to connect an additional subwoofer amplifier if required. We improved the signal-to-noise ratio and included colour coded jumpers with clear labels to make installation and setup easier for the installer. There are many other improvements, such as better Wi-Fi stability, a more detailed RUX-KNOB2 adjustment behaviour, as well as an auto adjusting power supply voltage depending on load and volume. A new automatic impedance test protects your equipment from wrong connections.

- 6CH analog input for highly flexible system integration
- Total power 700 W RMS into 4 Ω
- 100 W per channel into 4 Ω
- 120 W per channel into 2 Ω
- 200 W into 2 Ω (two paralleled channels)
- RCA (Low Level) (10 kΩ): 0.5 to 4 V (rms)
- Speaker Line (High Level) (22 Ω): 2 to 18 V (rms)
- 1 digital TOSLINK/SPDIF input
- Up to 8 speaker outputs with high power rating
- 110 dB signal-to-noise ratio (digital input)
- Channel separation > 75 dB
- USB Device input for DSP setup by PC
- Wireless connection with separate module (amp setup) for PC only, or wireless audio streaming (smart phone or PC))
- Class-D amplifier with fully digital audio path
- ADCs by Burr Brown
- Remote app for iOS and Android with basic control functions (Master level, Sub level, Preset recall, source selection)
- Pre-amp output (copy from channel 8, for external subwoofer amp)

8-CHANNEL SOUND PROCESSOR AND AMPLIFIER WITH AUTOMATIC SOUND TUNING

The groundbreaking Alpine OPTIM™8 is the ultimate all-in-one solution designed to effortlessly optimize and amplify any sound system with remarkable precision.

Enhance your sound system with the Alpine OPTIM™8. Featuring a built-in 8-channel amplifier with Hi-Res Audio playback up to 96 kHz / 24 Bit, the OPTIM™8 is the all-in-one sound solution to amplify and effortlessly sound-tune your system in minutes.

The Alpine OPTIM™8 removes all the complexities of tuning a sound system by providing a simple, self-guided process via the OPTIM IOS App (iPhone/iPad) or PC App with the KTX-CSP1 External Mic kit (sold separately) to quickly and precisely measure your vehicle's interior. This innovative Auto-EQ software analyzes your vehicle's acoustic environment and intelligently adjusts to optimize the audio output for your vehicle and provide the best possible listening experience. Manufactured under license rights from Eilex International, LLC. Eilex PRISM and VIR Filter are trademarks of Eilex International, LLC.

The Alpine OPTIM™8 boasts 8 channels of power with its built-in amplifier (6x 50 W @ 4 Ω + 2x 150 W @ 4 Ω or 6x 50 W @ 2 Ω + 2x 300 W 2 @ 2 Ω) allowing users to effectively power a full system with ease. Use it to boost a factory system or pair OPTIM™8 with Alpine's S-Series Speakers and Subwoofers for a powerful system upgrade in any vehicle.

- Hi-Res Audio Playback (96 kHz / 24 Bit)
- Intuitive Realtime Sound Set-Up with 5 Minute Vehicle Self-Tuning
- Manual & Automatic Sound Tuning with PC App Control
- Automatic Sound Tuning with iPhone App (must be iPhone 10 or newer)
- Anti-EQ for OEM System (Eliminates Factory EQ Curve)
- Auto-EQ with APVD Collection which Quickly Creates a Flat Vehicle Response
- Compatible with the KTX-CSP1 PC Mic Tuning Kit (sold separately
- 8-Channel High-Level/ 6-Channel RCA Audio Signal/Bluetooth® Audio Input
- 31 Band Parametric & Graphic EQ, Time Correction on all 8 channels
- Outputs: 8-Channel 4 V RCA
- Digital Inputs: Coax, USB (DAC)
- Speaker Input: Up to 30 V
- Built-In Internal Amplifier: 6x 50 W @ 4 Ω + 2x 150 W @ 4 Ω or 6x 50 W @ 2 Ω + 2x 300 W @ 2 Ω (4 Ω, 14.4 V, 1 kHz, 10% THD)
- What's in the Box: PXE-C80-88 Processor/Amplifier, Remote controller with extension cable, Bluetooth module, Speaker output wires, Speaker input wires, Mounting bracket and screws, USB-2-USB, connector for PC, Instruction Manual

SPC-L500F

ALPINE ADVENTURE AUDIO IN-CABIN FLUSH-MOUNT SPEAKER (LONG / SILVER)

129 £
incl. VAT
107.50 £ excl. VAT

The new series of Adventure Audio In-Cabin Speakers feature a high-quality finish, modern design, and excellent sound reproduction in an ultra-compact form factor. Their exceptionally compact design and the option for horizontal or vertical installation allow for symmetrical and well-aligned installations that was not possible with conventional car-audio speakers.

Customers can choose between high-quality surface-mount options with silver or dark-anodized aluminum enclosures of different length, designed for corner mounting. The second option are flush-mount versions, that seamlessly integrate with the wall surface using a meticulously designed aluminum grille.

The SPC-L500F flush-mount speaker includes 3 carbon-reinforced drivers for excellent sound reproduction, featuring 50 Watts RMS power handling. The grille can be turned to show the Alpine logo in horizontal or vertical orientation to allow installation flexibility.

- 530 mm In-Cabin Flush-Mount Speaker (1 piece)
- Silver Aluminum Housing
- 3 Ultra-Slim Carbon-Reinforced Drivers
- Grill orientation can be changed to match horizontal or vertical orientation
- Wide Dispersion Angle
- Removable End-Cap Screw-Covers
- Compatible with internal Head Unit amplifier
- Peak Power: 100 W
- RMS Power: 50 W
- Nominal Impedance: 4 Ω
- Frequency Response: 120 Hz - 20 kHz
- Sensitivity: 88.2 dB/W/m
- Cut-Out Requirements: 504 x 38 mm
- Vertical Installation: Dispersion Angle (horizontal): 160°, Dispersion Angle (vertical): 40°
- Horizontal Installation: Dispersion Angle (horizontal): 40°, Dispersion Angle (vertical): 160°

99.17 £ excl. VAT

The new series of Adventure Audio In-Cabin Speakers feature a high-quality finish, modern design, and excellent sound reproduction in an ultra-compact form factor. Their exceptionally compact design and the option for horizontal or vertical installation allow for symmetrical and well-aligned installations that was not possible with conventional car-audio speakers.

Customers can choose between high-quality surface-mount options with silver or dark-anodized aluminum enclosures of different length, designed for corner mounting. The second option are flush-mount versions, that seamlessly integrate with the wall surface using a meticulously designed aluminum grille.

The SPC-L500SB surface-mount speaker includes 3 carbon-reinforced drivers for excellent sound reproduction, featuring 50 Watts RMS power handling. The grille can be turned to show the Alpine logo in horizontal or vertical orientation to allow installation flexibility.

- 530 mm In-Cabin Surface-Mount Speaker (1 piece)
- Black Aluminum Housing
- 3 Ultra-Slim Carbon-Reinforced Drivers
- Grill orientation can be changed to match horizontal or vertical orientation
- Wide Dispersion Angle
- Compatible with internal Head Unit amplifier
- Peak Power: 100 W
- RMS Power: 50 W
- Nominal Impedance: 4 Ω
- Frequency Response: 120 Hz - 20 kHz
- Sensitivity: 88.2 dB/W/m
- Vertical Installation: Dispersion Angle (horizontal): 160°, Dispersion Angle (vertical): 40°
- Horizontal Installation: Dispersion Angle (horizontal): 40°, Dispersion Angle (vertical): 160°

SWC-D84L

ALPINE ADVENTURE AUDIO IN-CABIN SUBWOOFER 8" / 20 CM

99.90 £
incl. VAT
83.25 £ excl. VAT

The new series of Alpine Adventure Audio In-Cabin Speakers feature a high-quality finish, modern design, and excellent sound reproduction in an ultra-compact form factor. Their exceptionally compact design and the option for horizontal or vertical installation allow for symmetrical and well-aligned installations that was not possible with conventional car-audio speakers.

To complete your system, the Alpine Adventure Audio In-Cabin subwoofer SWC-D84L is designed to perfectly harmonize with the In-Cabin speakers for a highly dynamic and harmonic sound reproduction in your motorhome or camber van.

The sealed subwoofer enclosure features a die-cast front plate to allow a sturdy installation of the 20 cm dual voice-coil woofer. It is designed to be installed stealthy behind a panel or inside a storage compartment of your motorhome. With a peak power handling of 480 Watts, it delivers excellent bass to your In-Cabin sound system.

- 20 cm (8") Subwoofer with sealed enclosure
- Designed for use with Alpine Adventure Audio In-Cabin speakers
- Steel grille with Alpine logo
- Wooden enclosure with die-cast woofer front plate
- Designed for hidden installation behind wall panels or inside compartments of your motorhome cabin (only grille is visible)
- Peak Power Handling: 480 W
- RMS Power Handling: 160 W
- Nominal Impedance: 2 Ω + 2 Ω
- Frequency Response: 30 Hz - 200 Hz
- Sensitivity: 86 dB 1 m / 1 W

249.17 £ excl. VAT

Subwoofer with Enclosure for Fiat Ducato 3 Version 8

Bring powerful bass to your Fiat Ducato 8 and Fiat Ducato 9 with the SWC-D84DU woofer designed to fit under the vehicle's dashboard.

The SWC-D84DU is designed to overcome the audio limitations of the Fiat Ducato 8's cabin. The vehicle's doors have no internal sound-proofing, resulting in strong vibration noise of the inner door pane. By adding this subwoofer to the center console, you can enjoy much deeper and cleaner bass and overcome the mentioned issues from the ground up.

The 20 cm shallow-type, dual-voice coil (2 Ω + 2 Ω) woofer features 250 Watts peak power handling and can be connected to the 2 rear channels of your original or aftermarket radio or driven by an external amplifier (SWA-150KIT) for more power output.

- 20 cm flat subwoofer in sealed enclosure
- dual voice coil (2 Ω + 2 Ω)
- subwoofer features low power requirements
- Peak Power: 250 W
- RMS Power: 75 W
- Frequency response: 30 Hz - 200 Hz
- Impedance: Dual 2 Ω
- Compatible Cars: Fiat Ducato III Version 8/9 2022 →

Note:

- Compatible with original radio and aftermarket head units
- If you own a liner motorhome, please check compatibility before purchase!
- Only compatible with vehicles with original cup-holder; the cup-holder can be retro-fitted using original manufacturer parts

SPC-W84AT6-2

6-CHANNEL DSP AMPLIFIER & SUBWOOFER SYSTEM FOR VOLKSWAGEN T6.1 / T6

799 £
incl. VAT
665.83 £ excl. VAT

Upgrade your Alpine Adventure Audio speaker system for Volkswagen T6.1 or T6 to the Concert Ensemble with the new SPC-W84AT6-2 6-Channel DSP amplifier PDA-S560 and subwoofer system.

This sound upgrade will add lots of power output, dynamic and bass to your existing Alpine speaker system to achieve the ultimate listening experience in your vehicle.

The DSP amplifier is pre-programmed to perfectly match the sound characteristics of the Volkswagen T6.1 and T6, to ensure perfect sound quality, while the included wiring harness for original Volkswagen radios or aftermarket radios featuring RCA pre-amp outputs allows for fast plug-and-play installation in your vehicle.

The included 180 Watt subwoofer with wooden enclosure for installation under the passenger seat adds powerful bass and is even compatible with the rotary seat of the California camping bus.

DSP Amplifier:

- 6-Channel DSP Class D Amplifier
- RMS Power Ratings CH 1-4 into 4 Ω: 4x 80 W RMS4 (14.4 V at 1% THD+N)
- RMS Power Ratings CH 5-6 into 2 Ω: 2x 120 W RMS (14.4 V at 1% THD+N)
- Class AB (channel 1-4) and Class D (channel 5+6) amplification circuits
- 4x high power inputs
- Power Requirement: 12 V
- Measurements: 142 x 40 x 122 mm (176 mm with connectors plugged in)
- Pre-programmed VW T6.1 / T6 sound settings with EQ and digital time correction
- Adjustments for LHD or RHD vehicles
- Designed to work with retrofit radio (RCA)
- Designed to work with original Volkswagen T6.1 / T6 radios (high-power)

Subwoofer:

- 20 cm (8") dual voice coil subwoofer (2 Ω + 2 Ω)
- 180 Watt peak power handling / 60 Watt RMS power handling
- Frequency response: 10 Hz - 22,000 Hz
- Includes installation brackets for VW T6.1 / T6 under-seat installation
- Measurements: 355 x 330 x 170 mm
- Sensitivity: 91 dB 1 W / W
- Included subwoofer grill

2-WAY SPEAKER SET 6½" / 16.5 CM FOR VOLKSWAGEN CRAFTER 2 & MAN TGE

Upgrade your Volkswagen Crafter 2 (or MAN TGE) with the new SPC-106CRA2-2 high-end component speaker system.

SPC-106CRA2-2: The 2nd Generation with Even More Powerful Design

The second generation of the SPC-106CRA2-2 has been upgraded with several technical improvements to deliver an even more impressive sound experience. The new High-Amplitude Multi-Roll (H.A.M.R.) surround allows for greater cone excursion, resulting in more precise bass reproduction. Additionally, the vented pole structure enhances motor cooling by efficiently dissipating warm air. This enables the speaker to handle higher power levels for extended periods without sound degradation.

The gold-plated blade terminals ensure optimal signal transmission and corrosion resistance, while the die-cast aluminium basket provides high rigidity and allows for larger magnets without warping. This enhancement enabled us to equip the speakers with more powerful magnets while maintaining the same mounting depth. As a result, the SPC-106CRA2-2 delivers deeper bass, higher power handling, and increased component longevity.

The DSP amplifier is pre-programmed to perfectly match the sound characteristics of the Ford Transit 7, Transit 7 Custom, Tourneo 7 Custom, to ensure perfect sound quality, while the included wiring harness for original Ford radios or aftermarket radios featuring RCA pre-amp outputs allows for fast plug-and-play installation in your vehicle.

The included 180 W subwoofer with wooden enclosure for installation under the passenger seat adds powerful bass.

EAN: 4958043528059 | customs code: 85258019
country of origin: Italy
minimum quantity: 1
quantity per pallet: 6
quantity per master carton: 1

DSP Amplifier:

- 6-Channel DSP Class D Amplifier
- RMS Power Ratings CH 1-4 into 4 Ω: 4x 80 W RMS (14.4 V at 1% THD+N)
- RMS Power Ratings CH 5-6 into 2 Ω: 2x 120 W RMS (14.4 V at 1% THD+N)
- Class AB (channel 1-4) and Class D (channel 5+6) amplification circuits
- 4x high power inputs
- Power Requirement: 12 V
- Measurements: 142 x 40 x 122 mm (176 mm with connectors plugged in)
- Pre-programmed Ford Transit 7, Transit 7 Custom, Tourneo 7 Custom sound settings with EQ and digital time correction
- Adjustments for LHD or RHD vehicles
- Designed to work with retrofit radio (RCA)
- Designed to work with original Ford Transit 7, Transit 7 Custom, Tourneo 7 Custom radios (high-power)

Subwoofer:

- 20 cm (8") dual voice coil subwoofer (2 Ω + 2 Ω)
- 180 W peak power handling / 60 W RMS power handling
- Frequency response: 34 Hz - 1,5 kHz
- Includes installation brackets for under-seat installation
- 4-pin connection cable included
- Measurements: 355 x 330 x 170 mm
- Sensitivity: 91 dB/W (1 m)
- Included subwoofer grill and installation brackets

Compatible Cars:

- Ford Transit 7 2014 →
- Ford Transit 7 Custom 2014 →
- Ford Tourneo 7 Custom 2014 →

SWC-W84TRA7

SUBWOOFER 8" / 20 CM

139 £
incl. VAT

115.83 £ excl. VAT

Bring exciting bass to your vehicle with the SWC-W84TRA7. The 180 Watt subwoofer comes pre-installed in a sealed, custom-fit wooden enclosure for installation under the passenger seat to add powerful bass to your existing sound system.

The new series of Alpine Adventure Audio sound solutions for the Ford Transit 7, Transit 7 Custom and Tourneo 7 Custom have arrived - with the listening and mobility styles of motorhome and camping van enthusiasts in mind. Specially engineered for the challenging, and often audio-unfriendly environments of these camping and utility vehicles, our systems are guaranteed to provide unmatched sonic excellence on those long drives to your destination. They are not only a joy to listen to, but also a breeze to install, and their distinctive design will spruce up any cockpit without spoiling the original cabin cosmetics. Make your road-trips as exhilarating as your activities upon arrival with an Alpine Adventure Audio system!

Enjoy strong, powerful bass in your Ford Transit 7, Transit 7 Custom or Tourneo 7 Custom with this 180 Watt subwoofer and make all your audio tracks sound even more exciting. The dual-coil subwoofer comes pre-installed in a sealed wooden enclosure and is designed for installation under the passenger's seat of your vehicle.

The SWC-W84TRA7 includes all required installation brackets to perfectly install the subwoofer below the passenger seat of your Ford vehicle. A separate amplifier suitable for a dual 2 Ohm voice-coil subwoofer with 180 Watts peak power handling is required to use this subwoofer.

- 20 cm (8") dual voice coil subwoofer (2 Ω + 2 Ω)
- 180 W peak power handling / 60 W RMS power handling
- Frequency response: 34 Hz - 1.5 kHz
- Sensitivity: 91 dB/W (1 m)
- Includes installation brackets for under-seat installation
- 4-pin connection cable included
- Included subwoofer grill and installation brackets
- Compatible Cars: Ford Transit 7 (since 2014), Ford Transit 7 Custom (since 2014), Ford Tourneo 7 Custom (since 2014)

2-WAY SPEAKER SET 6½" / 16.5 CM FOR MERCEDES-BENZ SPRINTER 907 / 910

Upgrade your Mercedes-Benz Sprinter 907 / 910 with the new SPC-106S907-2 high-end component speaker system.

SPC-106S907-2: The 2nd Generation with Even More Powerful Design.

The second generation of the SPC-106S907-2 has been upgraded with several technical improvements to deliver an even more impressive sound experience. The new High-Amplitude Multi-Roll (H.A.M.R.) surround allows for greater cone excursion, resulting in more precise bass reproduction. Additionally, the vented pole structure enhances motor cooling by efficiently dissipating warm air. This enables the speaker to handle higher power levels for extended periods without sound degradation.

The gold-plated blade terminals ensure optimal signal transmission and corrosion resistance, while the die-cast aluminium basket provides high rigidity and allows for larger magnets without warping. This enhancement enabled us to equip the speakers with more powerful magnets while maintaining the same mounting depth. As a result, the SPC-106S907-2 delivers deeper bass, higher power handling, and increased component longevity.

Mid-Range Woofer:

- 166 mm mid-range door speaker
- Includes steel plates for solid door installation and adaptation to original door cut-out
- High quality steel basket and rubber surround
- 25 mm voice coil
- Large Ferrite magnet
- Vented Pole Structure
- Gold plated blade terminals
- Includes foam seal ring
- For easy installation with original Mercedes cable harness (original connectors)

Tweeter:

- 28 mm audiophile-grade back-chambered silk-dome tweeters
- Neodymium magnet
- Stainless steel tweeter grills (photo etched)
- Acoustically optimized tweeter installation brackets
- Integrate speaker network with foil condenser

Power Handling:

- Peak Power: 150 W
- RMS Power: 100 W

General:

- Frequency response: 45 Hz - 25 kHz
- Impedance: 4 Ω
- Sensitivity: 89.2 dB 1 W / W

RS-W10D2

DUAL-COIL SHALLOW SUBWOOFER (2 Ω) 10" / 25 CM

529 £
incl. VAT

440.83 £ excl. VAT

With an ultra-shallow subwoofer design and powerful sound output, the R-Series Shallow Subwoofers give you the best of both worlds in size and sound.

For those looking to add powerful, hard-hitting bass performance to their vehicle but lack the space to add a subwoofer, Alpine's R-Series Shallow Subwoofer delivers the same fun and loud sound you've come to expect, now in a shallow subwoofer that's designed to fit in most vehicle applications.

Don't let the size fool you – the R-Series Shallow Subwoofers feature the same cone movement (20 mm of excursion) as the full-size R2-Series Subwoofers for extreme output in a shallow woofer design. At the heart of the R-Series Shallow Subwoofers is an oversized 4-inch voice coil that is controlled by a powerful neodymium magnet for 600 W RMS of power handling.

Alpine's Gen2 DD-Linear Magnetic Circuit technology, a compact and efficient dual-gap voice coil structure, allows for better control over the motor, resulting in lower distortion and precise bass control.

- 10" High-Performance Shallow Bass Driver
- Alpine Gen2 DD Linear Magnetic Circuit
- Cast Aluminum Frame
- Aluminum Dust Cap
- Neodymium Magnet
- Mounting Depth: 3.25" (82.55 mm)
- X-Max: 20 mm
- Voice Coil: 4" (102 mm)
- Frequency response: 29 Hz - 200 Hz
- Sensitivity (1 W / 1 m): 83 dB
- Nominal Impedance: 4 Ω
- 600 W RMS / 1800 W Peak Power Handling
- Compatible with KTE-RS10G Subwoofer Grille Kit (sold separately)
- What's in the Box: 10" R-Series Shallow Subwoofer, Owner's Manual, Warranty Information, Online product registration information

KTE-RS10G

GRILLE FOR SUBWOOFER 10" / 25 CM

29.90 £
incl. VAT
24.92 £ excl. VAT

Protect your shallow subwoofer with a sleek and durable grille.

Made from the sturdiest materials, the KTE-RS10G protects your shallow subwoofer with a strong, metal mesh grille that is powder-coated for extra protection. A thick-textured, rubber screw cover snaps securely in place for peace of mind installation.

Not only does the KTE-RS10G offer added protection to your shallow subwoofer, the matte black finish provides a sleek, professional look that will elevate the cosmetic appearance. An included Alpine badge is designed to perfectly fit into a recessed area on the grille for a finished look.

The KTE-RS10G is designed for the Alpine RS-W10D4 and RS-W10D2 10" Shallow Subwoofers and includes mounting hardware for easy installation. Remove the screws holding the subwoofer in place, put the included mounting tabs over the screw holes, and re-mount the subwoofer using the included screws for the KTE-RS10G.

- 10" R-Series Shallow Subwoofer Grille Kit
- Black metal mesh grille
- Powder-coated finish
- Twist lock EZ change grille
- Alpine logo badge
- Fits the RS-W10D4 and RS-W10D2
- What's in the Box: Black metal mesh grille, Rubber gasket, 8x 1.5" self-tapping screws, 8x Grille locks, Installation Instructions

4-CHANNEL DIGITAL AMPLIFIER

299 £
incl. VAT

249.17 £ excl. VAT

- Hi-Res Audio Certified (Up to 40 kHz)
- 4-Channel Amplifier
- Alpine's Class D Amplifier Circuit
- Two-sided terminal layout
- Built-in Selectable/ Adjustable Crossovers
- Variable Mid-Bass EQ Circuit for more upper bass impact
- Optional Remote Bass Knob Compatible (required RUX-KNOB.2 or RUX-H01, sold separately)
- Power Rating: 14.4 V, ≤ 0.1% THD +N
- Power Output: 4x 60 W RMS @ 4 Ω, 4x 90 W RMS @ 2 Ω
- Bridged Power: 2x 180 W RMS @ 4 Ω
- S/N Ratio: > 83 dB
- Frequency Response: 20 Hz - 40 kHz
- Damping Factor: > 100
- CTA-2006-D Certification

S2-W12D2

DUAL-COIL SUBWOOFER (2 Ω) 12" / 30 CM

179 £
incl. VAT

149.17 £ excl. VAT

Alpine's redesigned next-generation S-Series subwoofers apply technology from our higher end subs to bring you the depth and punch that'll make your tunes come alive. With high-tech materials and Alpine know-how, these subs deliver the lows you crave at a budget-friendly price.

The S-W12D2 30 cm (12") sub handles up to 600 Watts RMS, so you can drive it hard without any worries. The redesigned cone combines carbon fiber and polypropylene for light weight and sturdiness, while its rubber High Amplitude Multi-Roll (HAMR) surround enables maximum excursion for impressive performance. Handy jumpers make it simple to switch from 2 Ω to 8 Ω impedance to adapt to your system. This sub is equally suited for ported and sealed boxes, so you can enjoy your bass big and boomy or tight and precise.

- Dual Voice Coil Subwoofer with Configuration Jumpers
- Carbon Fiber / Poly Propylene Cone
- Poly Propylene / Ceramic Dust Cap
- High-Grade Strontium Ferrite Magnets
- Twist-Lock Grille Mount System
- High-Amplitude Multi-Roll (H.A.M.R.) Surround
- Push-Type Speaker Terminals (Up to 8 AWG Wire Size)
- Grille not included
- Power Handling: 600 W RMS / 1800 W Peak
- Nominal Impedance: 4 Ω
- Frequency Response: 23 Hz - 215 Hz
- Sensitivity (1 W / 1 m): 86.2 dB
- Voice Coil: 6.60 cm
- X-Max (1-Way): 15 mm
- Magnet Weight: 1.8 kg
- Sealed box volume: 17.3 - 34 liters
- Ported box volume: 30 - 45.3 liters
- Quantity: 1 piece

KTE-12G3

GRILLE 12" / 30 CM FOR ALPINE'S R2-W12D4, R2-W12D2, S2-W12D4 AND S2-W12D2 SUBWOOFERS

34.90 £
incl. VAT

29.08 £ excl. VAT

Not only does the KTE-12G3 offer added protection to your subwoofer, but the matte black finish also provides a sleek, professional look that will elevate the cosmetic appearance of your subwoofer. An Alpine logo badge gives this protective mesh grille a premium finished look.

Made from the sturdiest materials, the KTE-12G3 protects your subwoofer with a strong, metal mesh grille that has a powder-coated finish for extra protection.

The KTE-12G3 is designed for Alpine's R2-W12D4, R2-W12D2, S2-W12D4 and S2-W12D2 12" subwoofers and is easy to install with Alpine's twist-lock EZ change grille system. Just remove the subwoofer's trim ring, put the grille in place, and replace the trim ring.

RUE-S100U

UNIVERSAL MULTIFUNCTION ROTARY KNOB FOR ALPINE RADIOS

59.90 £
incl. VAT

49.92 £ excl. VAT

The wired remote control RUE-S100U is intended for connection to an Alpine radio with steering wheel remote control input. It enables a easy basic operation of the Alpine radio, such as volume control, source selection, muting, etc. while driving.

The remote control is very compact and can be installed anywhere on the dashboard or in the center console. It has a simple rotary/push button that is very intuitive to operate.

In Expert mode, additional operating levels are available to the user, such as searching and controlling of the search function via the rotary control.

Please Note: A parallel connection with an analogue steering wheel remote control via the SWRC input on the Alpine radio is not possible. However, a parallel connection to a UART interface is still possible.

165.83 £ excl. VAT

7" INSTALLATION KIT FOR ALFA ROMEO GIULIETTA (TYPE 940) FROM 2013- AND NEWER

This 7-inch installation kit for the Alfa Romeo Giulietta model year 2013- and younger, lets you easily install the Alpine head units iLX-705D and INE-W720D / INE-W710D.

This kit comes with all required installation parts such as wiring harness, CAN bus interface, installation brackets, antenna adapter with phantom feed, power quadlock adapter and trim panel.

The CAN Interface allows to control the vehicle settings from the Alpine unit, similar to the original system. This makes installation much easier and allows usage of the steering wheel control buttons and vehicle information display with your Alpine product.

Also it includes an adapter that connects the original Alfa Romeo USB / AUX port in the dashboard with your Alpine system to maintain these useful connectors.

- Steering wheel remote control interface with CAN to analogue conversion and OPS (Optical Parking Sensor) screens and SIRI support
- Compatible Cars: Alfa Romeo Giulietta 2013 → (with originale U-Connect system installed)

+20 more

KIT-7AR-940 contents:

- Includes steering wheel remote control, wiring harness, installation brackets and trim plate
- Includes power quadlock adapter
- Includes antenna adapter with phantom feed
- Includes USB / AUX adapter for original Alfa Romeo USB / AUX port
